PROFESSIONAL SUMMARY

Senior Frontend Engineer with 4+ years delivering portals and workflow-heavy products across Saudi, Swiss, and Egyptian teams. Specializes in Angular, TypeScript, RxJS, and NgRx; owns work from requirements and state architecture through bilingual, production-ready interfaces. Now expanding into Java backend, API and database design, and cloud fundamentals.

CORE COMPETENCIES

Angular 13-21

TypeScript

NgRx State Architecture

RxJS & Reactive Flows

REST API Integration

RTL / Arabic-English i18n

Component Architecture

Playwright / E2E Testing

CI/CD & Code Quality

Google Maps Integration

WORK EXPERIENCE

INNOSOFT (previously Solutions by 42) Apr 2024 - Present

Frontend Engineer - Saudi digital transformation & custom software delivery

- Built Tagdeer's Angular frontend from zero across onboarding, dashboards, offers, reusable components, and scalable routing.
- Led Tahkeem frontend delivery; designed NgRx state, selectors, and effects for case lifecycles spanning 5+ modules.
- Standardized Arabic/English RTL/LTR patterns across shared modules and integrated map-based search with responsive filters.
- Introduced ESLint, Prettier, Husky, and Playwright coverage to strengthen review quality and critical release flows.

MODESO Aug 2023 - Apr 2024

Full-Stack Software Engineer - Swiss agency building web and mobile products for startups and enterprises

- Shipped responsive Angular flows and reusable components across multiple client products in a fast-paced agency.
- Built RxJS data flows and REST integrations with complete loading, empty, and error states.
- Resolved production issues including RxJS race conditions that caused intermittent data loss.

Integrated Solutions for Ports (ISFP) Jan 2023 - Jul 2023

Front End Engineer - Transport automation and business process management for Egyptian ports

- Delivered production workflow screens and reusable components for a government port-digitalization programme.
- Integrated backend services and supported pre-release validation of critical flows.

PROJECTS

Tagdeer Platform Production

Full Angular frontend spanning onboarding, dashboards, maps, offers, and bilingual RTL/LTR experiences.

Angular 17 · TypeScript · RxJS · Google Maps API · Angular Material · i18n

Tahkeem - Case Lifecycle Workflow Production

NgRx architecture for a case-management lifecycle across 5+ modules, including selectors, effects, and optimistic updates.

Angular · NgRx · RxJS · TypeScript · REST APIs

ngx-hyperpay Open Source

Published a typed, configurable Angular library for HyperPay integration on npm.

Angular · TypeScript · npm · Open Source

EDUCATION

BSc Computer Science

University of Northampton - Class A with Honours

BSc Computer Science

Arab Academy for Science, Technology & Maritime Transport -
GPA 3.54 / 4 (Honours)

CERTIFICATIONS & DEVELOPMENT

Certified Associate in Project Management (CAPM) - PMI

In progress

Building foundations in Java, backend APIs, SQL, cloud deployment, and system design; evaluating Node.js, .NET, and Go by role and market fit.

SKILLS

Frontend: Angular 13-21 · TypeScript · JavaScript · RxJS · NgRx · Angular Signals · Reactive Forms · Angular Router · Angular Material · PrimeNG · RTL/LTR i18n

Learning path: Java · Spring Boot · API design · SQL · Cloud fundamentals · Docker · System design

APIs & Integration: REST APIs · JWT · Swagger · SignalR · Google Maps API

Testing & Quality: Playwright · Jest · ESLint · Prettier · Husky
